As part of our ongoing commitment to listening to our school community and driving continuous improvement, we conducted a comprehensive feedback survey involving pupils, staff, and parents/carers. This survey aimed to capture honest reflections on key aspects of school life, including teaching quality, wellbeing, communication, and leadership.

The survey was distributed to all staff and families, and completed by a wide cross-section of our school community. Student responses were gathered during structured sessions to ensure inclusivity and clarity. The feedback provides valuable insights into what we are doing well and where we can continue to grow.

This initial round of feedback will inform our planning and priorities for the coming term. To track progress and maintain transparency, the survey will be repeated in December, allowing us to measure impact and respond to emerging needs.

We are grateful to everyone who took the time to share their views.

If you wish to share any further feedback please contact Chris Wright - Deputy Headteacher - Chris.wright@thebridge.cheshire.sch.uk
